SUBSTITUTE REISSUE DECLARATION BY THE INVENTOR

Docket Number (optional)

HO-P02233US0

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.
I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and Joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,839,514, granted _____, and for which a Reissue patent is sought on the invention entitled

MERGE, RE-EXAMINE AND REISSUE APPLICATION FOR METHOD AND APPARATUS FOR INJECTIONS COILED TUBING IN WELLS

The specification of which

 is attached hereto. was filed on January 18, 2000 as reissue application number 09/484,260
and was amended on _____
(if applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

 by reason of a defective specification or drawing. by reason of the patentee claiming more or less than he had the right to claim in the patent. by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening Reissue, such must be stated with an explanation as to the nature of the broadening:

The original patent claimed less than I had right to claim. To address this error, the claims were broadened by removing the "mast" limitation from claim 4. The mast limitation was not needed to patentably distinguish over the Vita International brochure that was cited in the Supplemental Disclosure Statement filed on May 1, 2000, or any other cited reference.

The original patent also claimed more than I had a right to claim in view of the Vita International brochure. To address this error, original claims 1, 2, and 3 were cancelled and claim 4 was rewritten in independent form with the following limitations:

a frame having a front end and a back end;
opposed bullnose arms mounted to said frame;
a tubing storage spool removably mounted to said bullnose arms, said tubing storage spool having said coiled tubing stored thereon;
an injector reel rotatably mounted to said frame; and
a drive mechanism attached to said injector reel to rotate said injector reel;
wherein said bullnose arms are vertically adjustable to accept varying tubing storage spool diameters.
